HTML CODE –

```
<!DOCTYPE html>
```

```
<html lang="en">
```

```
<head>
```

```
  <meta charset="UTF-8">
```

```
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
```

```
  <title>Login | Form</title>
```

```
<style>
```

```
  body{
```

```
    height: 100%;
```

```
    margin: 0;
```

```
    font-family: Arial, sans-serif;
```

```
    display: flex;
```

```
    justify-content: center;
```

```
align-items: center;

}

.form-container{
  margin-top: 200px;
  margin-bottom: 200px;
  height: 300px;
  width: 400px;
  display: flex;
  background-color: #F1E7BA;
  padding: 30px;
  align-items: center;

}

input {
  padding: 10px;
  width: 350px;
  border: 1px solid #ccc;
  border-radius: 5px;
}

button{
  background-color: #E84420;
  margin: 10px;
  color: white;
  width: 370px;
  border: none;
```

```
padding: 15px;

border-radius: 20px;

cursor: pointer;

}

</style>

</head>

<body>

  <div class="form-container">

    <div class="form">

      <form action="#" method="post">

        <font color="white" >Enter Username: </font><br><br><input
type="email" name="email" placeholder="Enter the Email Id" ><br><br>

        <font color="white">Enter Password:</font><br><br><input
type="password" name="pass" placeholder="Enter the Password"><br><br>

        <button typ>Login</button>

      </form>

    </div>

  </div>

</body>

</html>
```

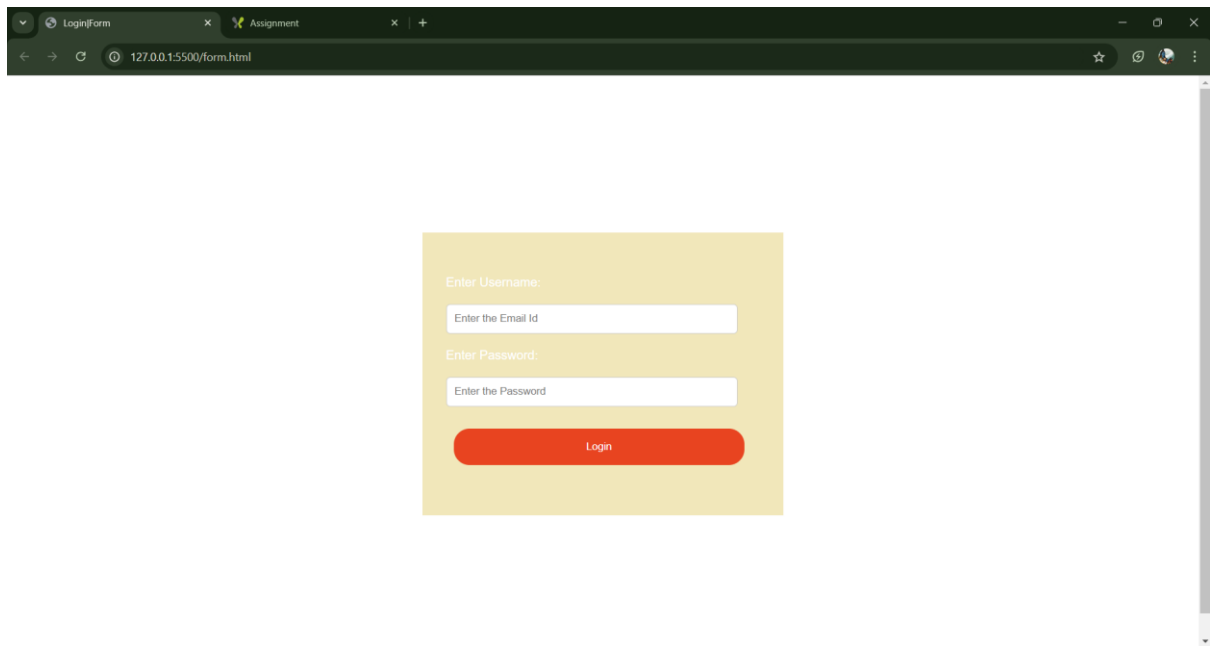

This screenshot shows the VS Code editor with the 'form.html' file open. The Explorer sidebar on the left lists various files, including 'form.html', 'h.html', 'images.html', and 'login.html'. The main editor area displays CSS code for the '.form-container' and 'input' selectors. The '.form-container' rules include height, margin, font-family, display, justify-content, align-items, and background-color. The 'input' rule includes padding and width.

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4   <meta charset="UTF-8">
5   <meta name="viewport" content="width=device-width, initial-scale=1.0">
6   <title>Login|Form</title>
7   <style>
8     body{
9       height: 100%;
10      margin: 0;
11      font-family: Arial, sans-serif;
12      display: flex;
13      justify-content: center;
14      align-items: center;
15    }
16    .form-container{
17      margin-top: 200px;
18      margin-bottom: 200px;
19      height: 300px;
20      width: 400px;
21      display: flex;
22      background-color: #F1E78A;
23      padding: 30px;
24      align-items: center;
25    }
26    input {
27      padding: 10px;
28      width: 350px;
29    }
30  </style>
```

This screenshot shows the VS Code editor with the 'form.html' file open, displaying the HTML structure of the login form. The Explorer sidebar on the left lists various files, including 'form.html', 'h.html', 'images.html', and 'login.html'. The main editor area displays the HTML code, including the head, body, and form elements. The form includes an email input, a password input, and a login button.

```
1 <html lang="en">

46         <font color="white">Enter Password: </font><br><br><input type="password" name="pass" placeholder="Ent
47         <button typ>Login</button>
48       </form>
49     </div>
50   </div>
51 </body>
```

Output –

A screenshot of a web browser window displaying a login form. The browser's address bar shows the URL `127.0.0.1:5500/form.html`. The login form is centered on the page and consists of a yellow rectangular box. Inside this box, there are two input fields: the first is labeled "Enter Username:" and contains the placeholder text "Enter the Email Id"; the second is labeled "Enter Password:" and contains the placeholder text "Enter the Password". Below these fields is a red, rounded rectangular button labeled "Login".
