          <button type="submit" class="btn">Login</button>
        </form>
        <div >
          Not a User?<a href="Regristation.html" >Register</a>
        </div>
      </div>
    </div>
  </div>
</div>

</body>
</html>
```

This screenshot shows the VS Code editor with the CSS file for the login page. The Explorer sidebar on the left lists various files under the 'ASSIGNMENT QUESTION' folder, with 'login.html' selected. The main editor area displays the CSS code for 'login.html', which includes a DOCTYPE declaration, a meta charset of 'UTF-8', a viewport meta tag, a Bootstrap CSS link, and a style block. The style block defines a flex layout for the body and a login container with a white background, padding, and a box shadow. A button is also styled with a blue background and white text.

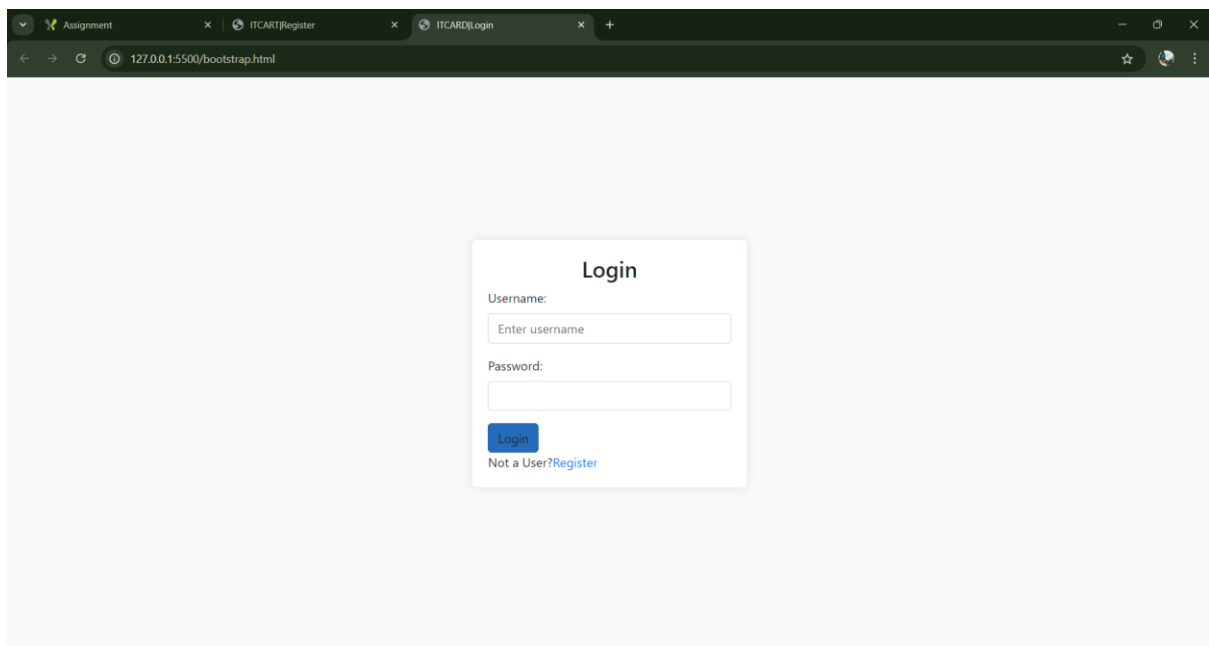

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4   <meta charset="UTF-8">
5   <meta name="viewport" content="width=device-width, initial-scale=1.0">
6   <title>ITCARD|Login</title>
7   <link href="https://maxcdn.bootstrapcdn.com/bootstrap/4.5.2/css/bootstrap.min.css" rel="stylesheet">
8   <style>
9     body {
10       display: flex;
11       justify-content: center;
12       align-items: center;
13       height: 100vh;
14       background-color: #f8f9fa;
15     }
16     .login-container {
17       background-color: #fff;
18       padding: 20px;
19       border-radius: 5px;
20       box-shadow: 0 0 10px rgba(0, 0, 0, 0.1);
21     }
22     .btn{
23       border-radius: 5px;
24       background-color: #007bff;
25       display: flex;
26     }
27   </style>
28 </head>
29 <body>
30
```

This screenshot shows the VS Code editor with the HTML file for the login page. The Explorer sidebar on the left lists various files under the 'ASSIGNMENT QUESTION' folder, with 'login.html' selected. The main editor area displays the HTML code for 'login.html', which includes a DOCTYPE declaration, a meta charset of 'UTF-8', a viewport meta tag, a Bootstrap CSS link, and a style block. The HTML structure uses Bootstrap classes to create a container, a row, and a column. It includes a login form with a text input for the username, a password input, and a submit button. A link to the registration page is also present.

```
1 <!DOCTYPE html>

</html>

The screenshot shows the VS Code editor with the file explorer on the left and the code editor in the center. The file explorer shows a project named 'ASSIGNMENT QUESTION' with various HTML and CSS files. The code editor is open to 'Registration.html' and shows the CSS file content. The CSS file includes a DOCTYPE declaration, a meta charset declaration, a meta viewport declaration, a title declaration, a link declaration for Bootstrap CSS, and a style block. The style block contains a body selector with flexbox properties and a background color, a .login-container selector with padding, border-radius, and box-shadow, and a .btn selector with border-radius, background-color, and display properties.

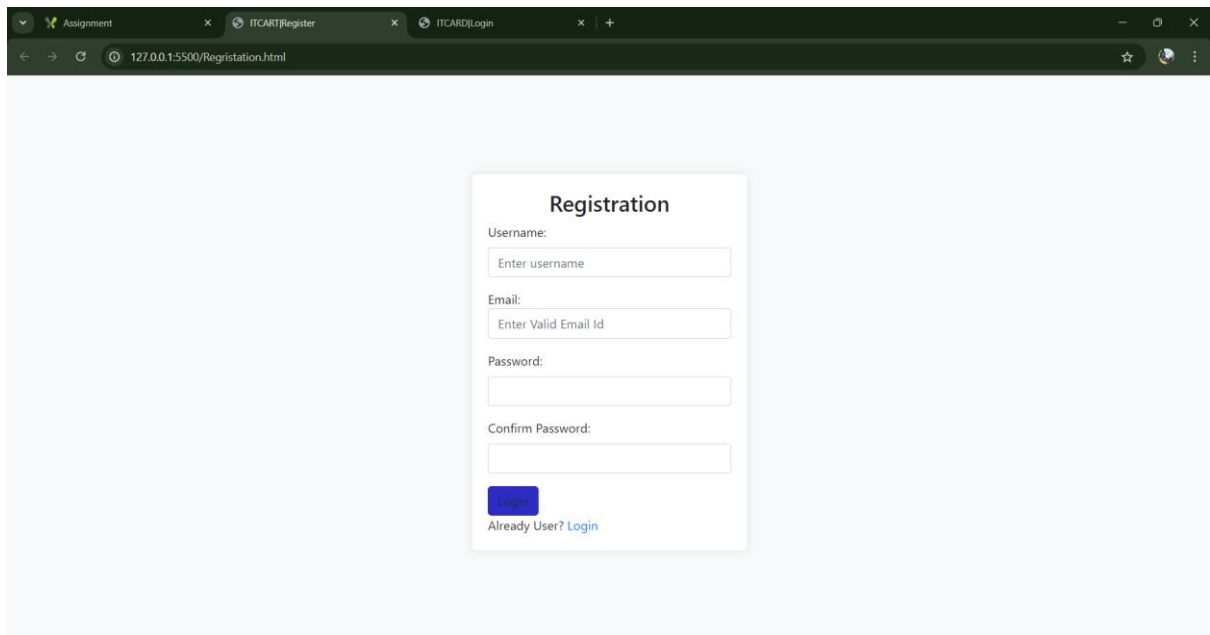

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4   <meta charset="UTF-8">
5   <meta name="viewport" content="width=device-width, initial-scale=1.0">

10   {
11     display: flex;
12     justify-content: center;
13     align-items: center;
14     height: 100vh;
15     background-color: #f8f9fa;
16   }
17   .login-container {
18     background-color: #fff;
19     padding: 20px;
20     border-radius: 5px;
21     box-shadow: 0 0 10px rgba(0, 0, 0, 0.1);
22   }
23   .btn{
24     border-radius: 5px;
25     background-color: #45, 45, 197;
26     display: flex;
27   }
28 </body>
29 </html>
```

The screenshot shows the VS Code editor with the file explorer on the left and the code editor in the center. The file explorer shows a project named 'ASSIGNMENT QUESTION' with various HTML and CSS files. The code editor is open to 'Registration.html' and shows the HTML file content. The HTML file includes a DOCTYPE declaration, a meta charset declaration, a meta viewport declaration, a title declaration, a link declaration for Bootstrap CSS, and a body element. The body element contains a container div with a row of columns. The first column contains a login-container div with a registration heading, a form group with a username input, a form group with an email input, a form group with a password input, a form group with a confirm password input, and a submit button. The second column contains a link to the login page for already users.

```

42 </html>
```

Output

The screenshot shows a web browser window with three tabs: "Assignment", "ITCARTRegister", and "ITCARDLogin". The address bar displays "127.0.0.1:5500/Registration.html". The main content area features a "Registration" form with the following fields and elements:

- Registration** (Form Title)
- Username:** Input field with placeholder text "Enter username".
- Email:** Input field with placeholder text "Enter Valid Email Id".
- Password:** Input field.
- Confirm Password:** Input field.
- login** (Blue button)
- Already User? [Login](#)** (Text with a link)
